Based in Munich | No visa sponsorship needed | English C2, German A2

PROFILE

Senior engineer with 12 years of JavaScript and 10 years of React. Spent five years at Almosafer building a Next.js booking platform for 1M+ monthly users, where I improved Core Web Vitals by 40% and organic traffic by 25%. Now building a luxury travel platform from zero at WeStay with React, TypeScript and a NestJS backend-for-frontend layer. I own features end to end, from component architecture and API design to testing, CI/CD and production.

TECHNICAL SKILLS

Frontend: React (10 years) | Next.js (7) | TypeScript (7) | JavaScript (12) | Redux Toolkit | Zustand | Tailwind CSS | Material UI | Storybook

Backend: Node.js | NestJS | Express | REST | GraphQL | WebSockets | PostgreSQL | Redis

Quality and performance: Jest | React Testing Library | Playwright | Cypress | Core Web Vitals | SEO | Accessibility (WCAG 2.1)

Delivery: GitHub Actions | Docker | Kubernetes | AWS (S3, CloudFront) | Azure (Front Door, Blob Storage) | Datadog

AI tooling: Cursor | Claude Code | GitHub Copilot in daily development

WORK EXPERIENCE

11/2025 - today

Senior Full-Stack Engineer

WeStay, Dubai, UAE (remote from Munich)

Project: Luxury travel and booking platform built from zero to production.

- Built the booking frontend from zero with React, TypeScript, Vite and Tailwind CSS, turning Figma designs into accessible production interfaces.
- Designed the NestJS backend-for-frontend layer with REST APIs, WebSockets and Redis caching, improving API response times by 40%.
- Created a library of 40+ reusable components in Storybook that became the design system standard across teams.
- Reduced bundle size by 28% and time to interactive by 1.2 seconds through code splitting, lazy loading and caching.
- Set frontend standards, linting rules and code review practices used by 8+ developers, reducing inconsistencies by 45%.

Technologies used: React | TypeScript | Vite | Tailwind CSS | Zustand | NestJS | PostgreSQL | Redis | WebSockets | Storybook | Playwright | GitHub Actions | Azure.

02/2020 - 06/2025

Senior Frontend Engineer

Almosafer (Seera Group), Dubai, UAE

Project: Saudi Arabia's leading travel booking platform.

- Rebuilt the legacy booking platform on Next.js 13+ (App Router) with server-side rendering, improving Core Web Vitals by 40% and organic traffic by 25%.
- Optimised page delivery with edge caching and lower SSR overhead, raising session-to-search conversion by 18%.
- Raised test coverage from 15% to 60% with Jest, React Testing Library and Cypress, reducing production bugs by 55%.
- Established a Material UI design system adopted by 5 teams, cutting frontend development time by 30%.
- Automated CI/CD with GitHub Actions on Docker and Kubernetes, reducing deployment errors by 80% and build time by 40%.

Technologies used: Next.js | TypeScript | Material UI | Redux | REST | GraphQL | AWS | Docker | Kubernetes | GitHub Actions | Datadog.

07/2018 - 01/2020 **Software Engineer**

Conceptualize, Dubai, UAE

Project: Business intelligence and car inspection tools for a UAE classifieds marketplace.

- Built a real-time BI dashboard with React, D3.js and Chart.js over WebSockets, processing 50,000+ data points per day.
- Automated car inspection flows with React and Node.js, increasing booking conversions by 10%.
- Reduced page load time by 30% with Webpack code splitting and lazy loading.

Technologies used: React | Redux | Node.js | D3.js | Chart.js | WebSockets | REST | Jest | Webpack.

11/2016 - 07/2018 **Software Engineer**

VentureDive, Karachi, Pakistan

Project: VistaJet booking suite; private jet booking platform serving clients in 187 countries.

- Refactored booking and pricing modules, reducing customer drop-offs by 22%.
- Migrated state management from Flux to Redux, cutting feature delivery time by 25%.
- Introduced a Git branching strategy and review policy, reducing post-release bugs by 30%.

Technologies used: React | Redux | JavaScript | REST | Webpack | Git.

06/2014 - 11/2016 **Web Developer**

Conceptualize, Dubai, UAE (remote)

- Developed embeddable live sports widgets used by 20+ regional publishers with JavaScript and REST APIs.

SIDE PROJECT

Ongoing **The Halal Explorer** | thehalalexplorer.com

Own and run a halal travel guide covering 53 destinations. Built with Next.js (App Router), TypeScript, Tailwind CSS and Sanity CMS on Vercel. I handle the engineering, SEO, content model and affiliate integrations myself.

EDUCATION

08/2015 - 06/2017 **Master of Computer Science** | Bahria University, Karachi, Pakistan

09/2010 - 06/2014 **Bachelor of Computer Science** | Bahria University, Karachi, Pakistan

LANGUAGES AND VISA

Languages: English (C2) | Urdu (mother tongue) | German (A2, currently learning)

Visa: Chancenkarte holder based in Munich. No visa sponsorship needed; can move to an EU Blue Card with a job offer.
